Protective circuit

| Performance data              |                                    |
|-------------------------------|------------------------------------|
| Supply voltage U <sub>B</sub> | 10 30 V, DC, Incl. residual ripple |
| Residual ripple               | 0 15 %, From U <sub>B</sub>        |
| Open-circuit current          | 0 15 mA                            |

## Outputs

Number of digital switching outputs 2 Piece(s)

| Switching outputs                       |                             |
|-----------------------------------------|-----------------------------|
| Voltage type                            | DC                          |
| Switching current, max.                 | 100 mA                      |
| Switching voltage                       | high: ≥(U <sub>B</sub> -2V) |
|                                         | low: ≤ 2 V                  |
| Switching output 1<br>Switching element | Transistor, NPN             |
| Switching principle                     | Light switching             |
| Switching output 2<br>Switching element | Transistor, NPN             |
| Switching principle                     | Dark switching              |
| ne behavior                             |                             |

## Time behavior

| Switching frequency | 500 Hz |
|---------------------|--------|
| Response time       | 1 ms   |
| Readiness delay     | 300 ms |

#### Connection

| Connection 1         |                |
|----------------------|----------------|
| Function             | Signal OUT     |
|                      | Voltage supply |
| Type of connection   | Cable          |
| Cable length         | 2,000 mm       |
| Sheathing material   | PUR            |
| Cable color          | Black          |
| Number of conductors | 4 -wire        |
| Wire cross section   | 0.2 mm²        |
|                      |                |

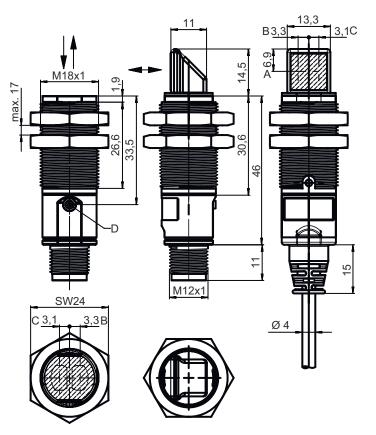

## Mechanical data

| Thread size                                                                                                                                                                                                                                                                                            | M18 x 1 mm                                                                                                                                                                                       |

# **Dimensioned drawings**

All dimensions in millimeters

- A Vertical position of the optical axis
- B Optical axis (transmitter)
- C Optical axis (receiver)
- D Indicator diode

# **Electrical connection**

**Connection 1** 

| Function             | Signal OUT          |
|----------------------|---------------------|
|                      | Voltage supply      |
| Type of connection   | Cable               |
| Cable length         | 2,000 mm            |
| Sheathing material   | PUR                 |
| Cable color          | Black               |
| Number of conductors | 4 -wire             |
| Wire cross section   | 0.2 mm <sup>2</sup> |
|                      |                     |

## **Conductor color**

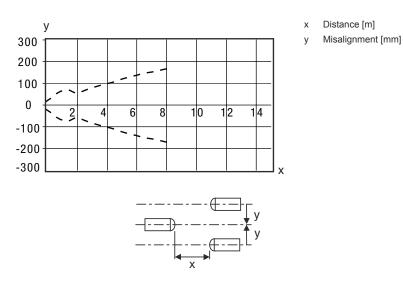

## **Conductor assignment**

| Brown | V+    |
|-------|-------|
| White | OUT 2 |
| Blue  | GND   |
| Black | OUT 1 |

## Diagrams

# Leuze

## Typ. response behavior

# **Operation and display**

| LED | Display                  | Meaning               |
|-----|--------------------------|-----------------------|
| 1   | Green, continuous light  | Operational readiness |
|     | Yellow, continuous light | Light path free       |
|     | Yellow, flashing         | No function reserve   |

## Suitable transmitters

|           | ∜ The product may only be put into operation by competent persons.               |
| <u>_•</u> | ∜ Only use the product in accordance with its intended use.                      |
|           |                                                                                  |

## For UL applications:

& For UL applications, use is only permitted in Class 2 circuits in accordance with the NEC (National Electric Code).

These proximity switches shall be used with UL Listed Cable assemblies rated 30V, 0.5A min, in the field installation, or equivalent (categories: CYJV/ CYJV7 or PVVA/PVVA7)

## **Further information**

• Sum of the output currents for both outputs, 50 mA for ambient temperatures > 40 °C

## Accessories

## Mounting technology - Mounting brackets
